**Thank you for choosing Applied Bolting Technology™**

**Squirter® DTLs**

**Questions about Installation or Inspection?**

**Call us at (802) 460-3100**

## **Pro Tips** (read first)

- Store all hardware to prevent corrosion, reducing the effort needed to tension the bolts.
- Lubricate both the bolt threads and washer face of nuts to reduce friction and improve the installation.
- Use a tool with enough power, hardware testing can check this.
- Hole detail in the steelwork is critical for proper assembly.
- Videos, tips and specific instructions are available at [appliedbolting.com](http://appliedbolting.com).

## Step 1 Assemble

# Quick Start Guide

## Step 2 Tighten / Inspect

Diagram showing the DTI (bumps out) washer with five orange bumps labeled 1 through 5, indicating the inspection points.

When orange is visible from all bumps, installation and inspection is complete.
